

Withdraw

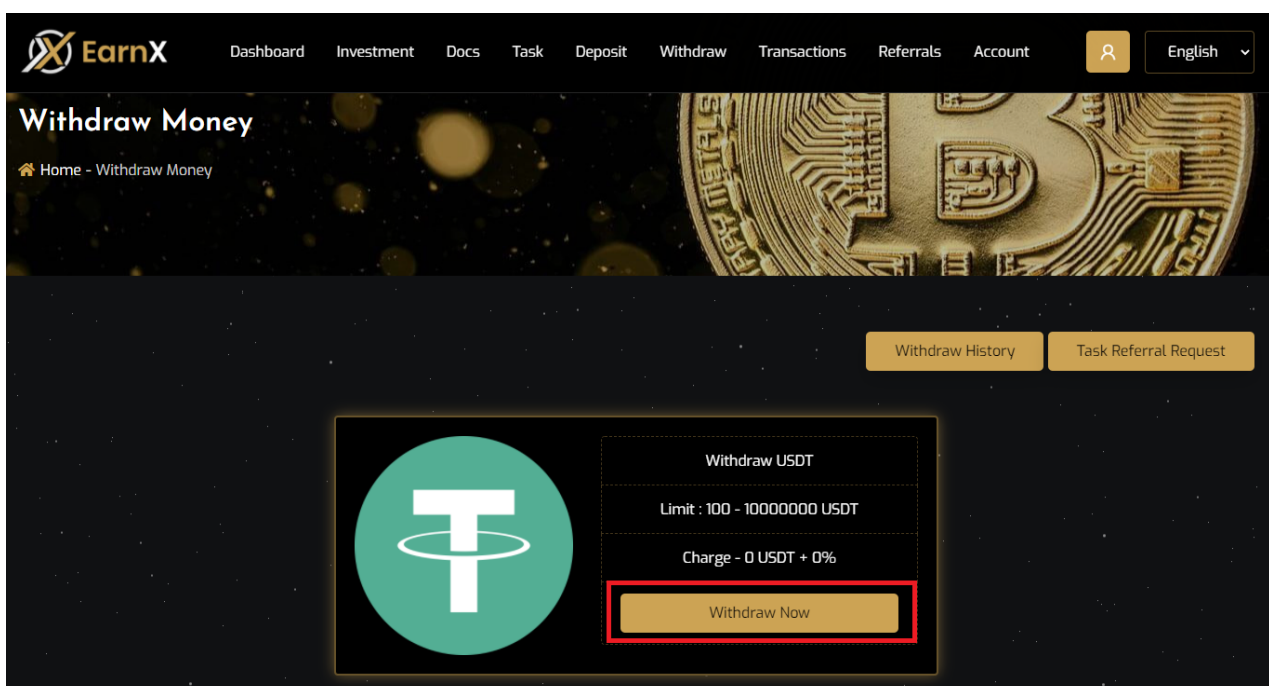

So now you have started earning from EarnX, but have you ever thought about how to withdraw this money from EarnX? So we have an answer for you and we will give you a solution for withdrawal. For that, you have to log in first to the user's dashboard. and then you will get the user's dashboard. On the user's dashboard, you will see the Withdraw section in the header menu. Go into the Withdraw Section and now press the "Withdraw Now" button from the Manual Coin Payout. If your profile is not complete, then you should first complete your profile, and then you can withdraw your money from EarnX. After completing your profile, users can withdraw their funds with our manual coin payout. Once the user presses the Withdraw Now button, one pop-up window will be open and the user should enter the value that they want to withdraw. Then, afterward, the user can select which cryptocurrency they want to withdraw. After that, you need to enter your wallet address for the selected cryptocurrency, and now your withdrawal process is done, and you will get your money into your account shortly.

Step 1: Login into the user's dashboard.

Step 2: Go to the "Withdraw" section.

Step 3: Select the "Withdraw Now" button.

Step 4: If your profile is not complete, then first you have to complete it.
