

Account

1. Profile Setting

In the profile setting, every user has to complete their profile first.

2. Transfer Balance

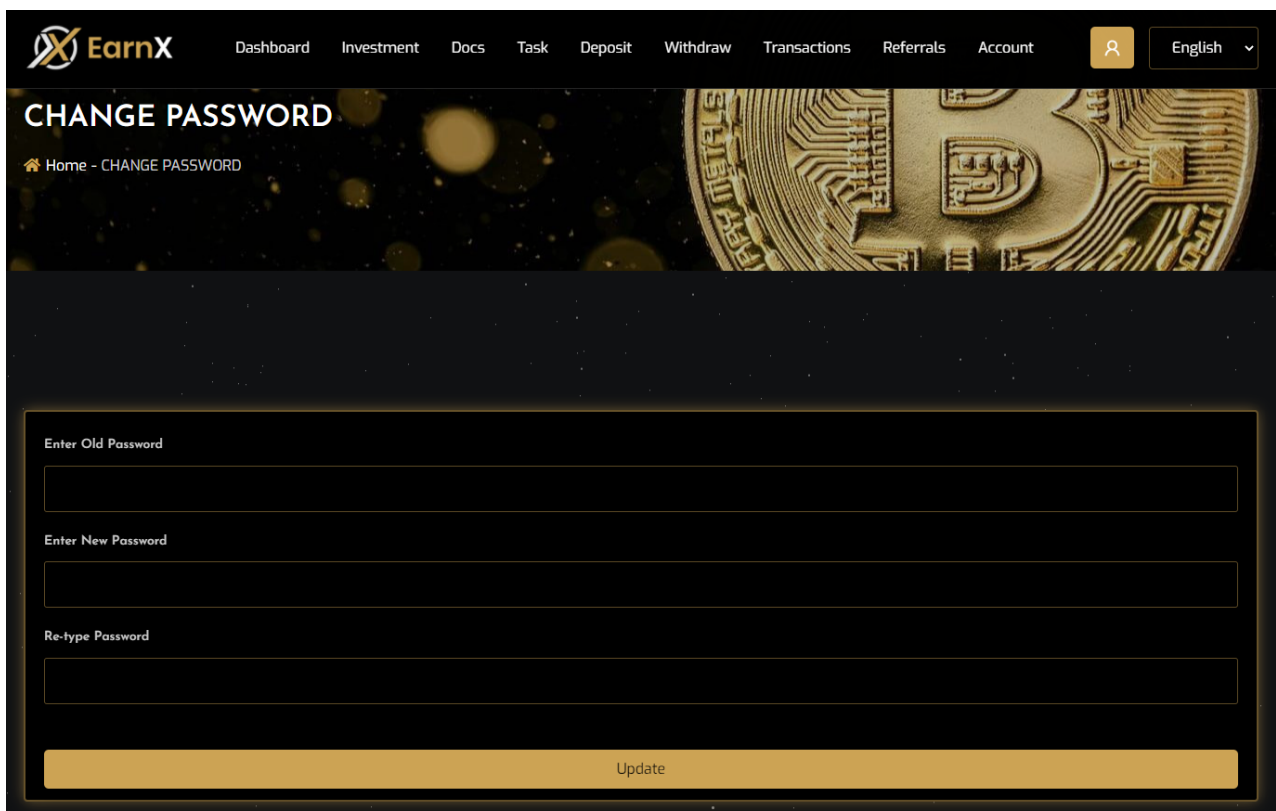

On EarnX, you can transfer your balance to another EarnX user.

The screenshot shows a dark-themed form for transferring balance. It includes a 'Wallet' dropdown menu with the text 'Select a wallet', a 'Username' input field, an 'Amount' input field with a green note '(Charge 100 USDT + 25%)' and a 'USDT' button, and an 'Amount Will Cut From Your Account' input field with a 'USDT' button. A large yellow 'Transfer' button is at the bottom.

3. Change Password

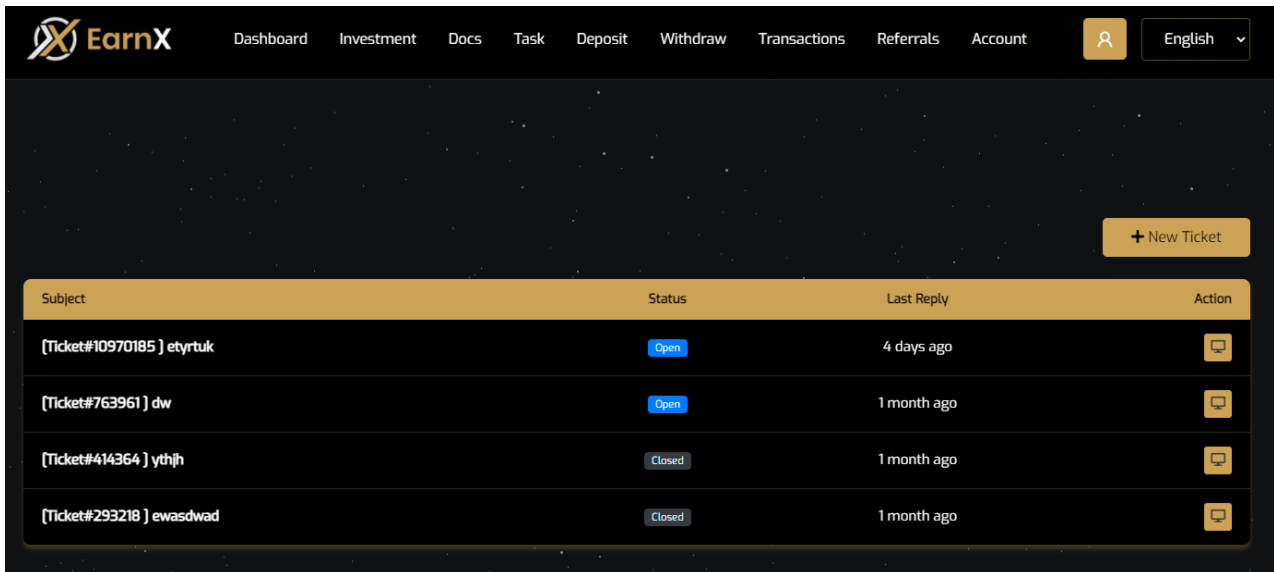

In EarnX, if any user forgets their password, then they can change their password with the help of the "Change Password" section.

The screenshot shows the 'CHANGE PASSWORD' page in EarnX. The header includes the EarnX logo and navigation links: Dashboard, Investment, Docs, Task, Deposit, Withdraw, Transactions, Referrals, Account, a user profile icon, and a language dropdown set to 'English'. The page title is 'CHANGE PASSWORD' with a breadcrumb 'Home - CHANGE PASSWORD'. The main content area features three input fields: 'Enter Old Password', 'Enter New Password', and 'Re-type Password'. A large yellow 'Update' button is at the bottom.

4. Support Ticket

If the user faces any difficulty then the user can raise a support ticket and we give you full support to the user for any queries at any time.

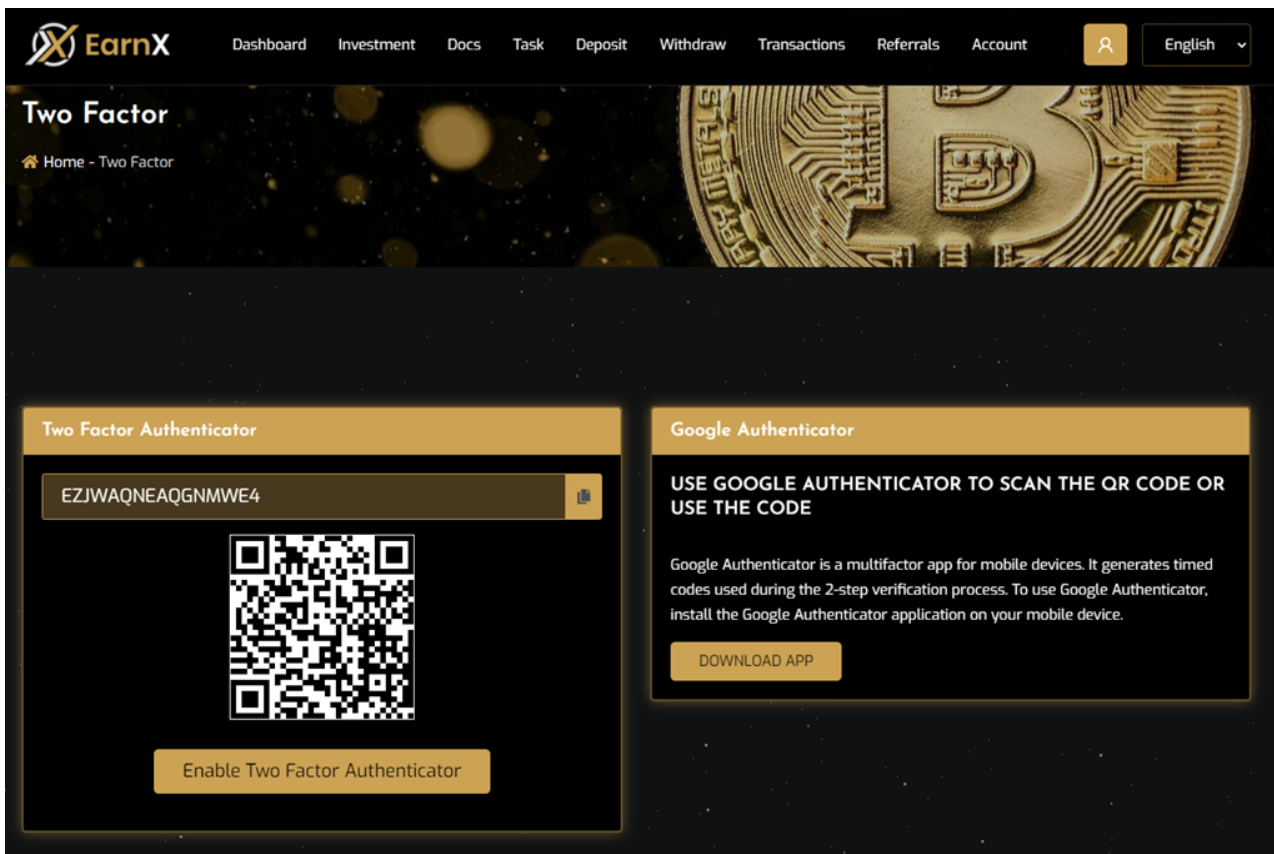

The screenshot shows the EarnX dashboard with a navigation menu at the top: Dashboard, Investment, Docs, Task, Deposit, Withdraw, Transactions, Referrals, Account, a user profile icon, and a language dropdown set to English. A '+ New Ticket' button is located in the top right. Below is a table of support tickets:

Subject	Status	Last Reply	Action
[Ticket#10970185] etyrtuk	Open	4 days ago	[Icon]
[Ticket#763961] dw	Open	1 month ago	[Icon]
[Ticket#414364] ythjh	Closed	1 month ago	[Icon]
[Ticket#293218] ewasdwad	Closed	1 month ago	[Icon]

5. 2FA Security

In EarnX we provide you with 2-factor authentication for a user's account. To do this, users need to download the **Google Authenticator** application and then scan the QR code available on your 2FA Security section, after scanning this QR code and enter your authentication code.

The screenshot shows the EarnX dashboard with the 'Two Factor' section active. The page title is 'Two Factor' and the breadcrumb is 'Home - Two Factor'. The background features a Bitcoin coin. The main content area is divided into two panels:

- Two Factor Authenticator:** Displays a QR code and a text input field containing the code 'EZJWAQNEAQGNMWE4'. Below the QR code is a button labeled 'Enable Two Factor Authenticator'.
- Google Authenticator:** Contains the text 'USE GOOGLE AUTHENTICATOR TO SCAN THE QR CODE OR USE THE CODE'. Below this is a paragraph: 'Google Authenticator is a multifactor app for mobile devices. It generates timed codes used during the 2-step verification process. To use Google Authenticator, install the Google Authenticator application on your mobile device.' At the bottom of this panel is a button labeled 'DOWNLOAD APP'.
